

SPECIFICATION SHEET

Site Address _____

Permit No. _____ Date _____

Basement Crawl Space Slab-on-Grade

Basement floor thickness _____ inches Floor vapor barrier type _____

Footing size: _____ in wide by _____ in deep Depth below grade: _____ ft _____ in

Foundation: Poured wall Block Number of Courses _____ Thickness: _____ in

Basement Ceiling Height: _____ ft _____ in Depth of Unbalance Fill: _____ ft _____ in

Parging: Yes No Anchor Bolts(1/2 inch diameter min): Block 18-in Poured Wall 10 in

Sill plate distance above finished grade: _____ inches

Depth of crawl space (below joists) _____

Joists: 2 inches by _____ inches Span _____ feet _____ inches

Joist spacing: _____ inches

Subfloor thickness: _____ inches Finish Floor: _____ inches Ceiling height: _____ ft _____ in

Studs: 2 inches by _____ inches Spacing: _____ inches

No. of crawl space _____ each Sq. inches of free air of each _____

Still Plate: height above finish grade- _____ inches Treated sill plate & Sealer Yes No

Wall sheathing material: _____ Thickness: _____

Corner Bracing: Plywood Cut-in 1x4 Metal T-bar Strap

Siding material _____, Thickness _____ in

Bedroom window(s) clear area _____ Sq. ft. (_____ in by _____ in)

Wall Insulation: Type _____ Thickness _____ R-value _____

Roof Pitch: _____ -12 Rafters: Yes, Size 2 x _____, Horizontal span _____

Trusses: Yes, Spacing _____ Span _____

Interior wall finish material: _____
Nailed Screwed Thickness _____

Interior Ceiling finish material: _____ Thickness: _____

Interior Ceiling slope - if pitched _____ - 12

Roof sheathing material _____; Thickness _____

Roof paper- weight _____ lbs. Number of layers: _____

Ceiling Insulation: Type- _____ Thickness- _____ R-Value- _____

Roof Louvers: Number _____ Size- Sq. inches free air of each _____

Ice Shield: Yes, Type _____ No

Roofing Material: _____ Weight: _____

Soffit & Fascia Material: _____

Gutter and Downspout Material: _____

Size of landing each side of egress door(s): inside _____ outside _____

Stair thread _____ in Stair riser _____ in

Stair Guardrail required? Yes No

If Garage is Attached:

Depth of garage floor below dwelling floor _____ in

Floor surface material: _____

Vapor barrier below concrete floor: Yes No

Height of curb around crawlspace entry: _____ in

Window Heater Schedule:

Window Number:

Header Size:
